DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8, and 17-32 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 17, 26, 31 and 32, they are allowable due to the fact that no prior art completely encompasses all the limitations within the claims.

Bell was used to show the dual mode functionality within a dual-mode phone. Bell's phone consisted of two air interfaces, one cellular, one cordless. Bell discloses some limitations of the Application, but as stated by Applicant, Bell does not disclose the distinctive features of wherein the first wireless modem controls the operation of the second wireless modem; wherein the second wireless modem includes control functionality only for operation of said second air interface, and wherein said first wireless modem controls the operation of said second wireless modem such that said first wireless modem manages the operations of both said first air interface and said second air interface. Therefore, as stated by Applicant, Applicant's phone requires two distinct wireless modems (Spec., page 1, lines 22-23), and the specific functionality that the first wireless modem includes general control functionality for the handset and the second wireless modem only includes functionality specific to the operation of the

second wireless modem, and wherein the first wireless modem controls the operation of said second wireless modem and manages the operations of both said air interfaces.

The combinations of features are allowed with emphasis on the specific feature, wherein said second wireless modem includes control functionality only for operation of said second air interface and wherein said first wireless modem controls the operation of said second wireless modem such that said first wireless modem manages the operations of both said first air interface and said second air interface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuck Huynh whose telephone number is 571-272-7866. The examiner can normally be reached on M-F 8am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Trost can be reached on 571-272-7872. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
